

Senior DevOps Engineer (M/F/D)

About Spherity

Spherity is building decentralized identity management solutions based on blockchain technology to power the 4th industrial revolution, bringing secure identities (“Digital Twins”) to machines, algorithms, and other non-human entities. The client focus is primarily on technical industries like mobility, supply chain, and pharmaceuticals; in particular, Spherity is a market leader in the data integrity requirements of the Industrial Internet of Things (IIoT) market.

Responsibilities

- You will work on identity and Industry 4.0 projects in an open-minded, competent and multicultural team
 - You will work in an agile environment; stand-ups will be a part of your daily work
 - You will contribute by optimizing and securing our scaling infrastructure
 - You will be responsible for maintaining our Linux and AWS infrastructure
 - You may propose new technologies and adopt them quickly
 - You will share knowledge in your field of interest (e.g. topics in containers, IT-sec, etc.)
 - Our products will show a technical footprint of your work and ideas
-

Professional skills and experience

Minimum qualifications

- Proficiency with AWS (CloudFormation, IAM, Secrets Manager, EC2, S3, CloudFront, ECS, API Gateway, Lambda, DynamoDB)
- Proficiency with Docker
- Proficiency in writing bash scripts
- Proficiency with Hashicorp Terraform
- Experience with Hashicorp Consul
- Experience with Hashicorp Vault
- Experience with ELK stack
- Experience with GitLab
- Experience with Ethereum

Optional

- Experience in identity system development and web-based tech
- Experience with cryptography (e.g. key management, signing, encryption)
- Experience with Kubernetes
- Experience with Hyperledger
- Experience in penetration testing

You don't meet every criteria, but think that you gonna kill it?

Don't worry and email us!

Soft skills

- Good communication skills
 - Flexible and resilient
 - Ability to work independently and self-discipline
 - Team-player and problem-solver
-

Spherity and your benefits

WE...

- ... are a pleasant team based in Dortmund and Berlin.
- ... are a young start-up, but already have a high reputation in the Blockchain and identity ecosystem.
- ... work closely with our industry- and technology partners.
- ... have a global network.
- ... are very open to any nationality, gender, colour and character.

YOU...

- ... will work in Dortmund and/or Berlin, but with the ability to do home office on a regular basis.
- ... will have flexible working hours as long as you are able to meet deadlines and achieve targets set.
- ... will be able to leverage your own ideas and to be creative.
- ... will have the chance to position yourself in a fast-growing company.
- ... will meet interesting people from the blockchain and decentral identity community as well as from the client industry (esp. energy, automotive/mobility and supply chain).
- ... will have the opportunity to increase your own reputation by speaking at conferences, hosting hackathons, writing articles, etc.
- ... will receive a generous budget for personal development
- ... will be able choose your own laptop
- ... will receive a gym membership dependent on the work location
- ... will love our team breakfasts and events
