

IT Project / Business Development Manager (M/F/D)

About Spherity

Spherity is building decentralized identity management solutions based on blockchain technology to power the 4th industrial revolution, bringing secure identities (“Digital Twins”) to machines, algorithms, and other non-human entities. The client focus is primarily on technical industries like mobility, supply chain, and pharmaceuticals; in particular, Spherity is a market leader in the data integrity requirements of the Industrial Internet of Things (IIoT) market.

Responsibilities

- You will work on identity and industry 4.0 projects in an open-minded, competent and multicultural team.
- You will work in a agile environment, stand-ups will be a part of your daily work.
- You will lead customer projects and drive the business requirements definition process.
- You will be the interface to our development team and assure business requirements are met.
- You will have the freedom to improve our solution portfolio.

Professional Skills And Experience

Minimum Qualifications:

- Bachelor degree in Business Administration and or Computer Science, or related discipline; or comparable practical experience
- Minimum of 5 years of professional experience in IT project management
- Must have extensive experience in translating business into IT requirements

Optional:

- Experienced in identity system development and web-based tech
- Experiences with concepts of cryptography (e.g. key management, signing, encryption)
- Experience in software development

You don't meet every criteria, but think that you gonna kill it? Don't worry and email us!

Soft Skills

- Good communication skills
- Flexible and resilient
- Ability to work independently and disciplined
- Team-player and problem-solver

Spherity And Its Advantages

WE...

- ... are a pleasant team based in Dortmund.
- ... are a young start-up, but already have a high reputation in the Blockchain and identity ecosystem.
- ... work closely with our industry- and technology partners.
- ... have a global network.
- ... are very open to any nationality, gender, colour and character.

YOU...

- ... will work in Dortmund, but with the ability to do home office on a regular basis.
- ... will have flexible working hours as long as you are able to meet deadlines and achieve targets set.
- ... will be able to leverage your own ideas and to be creative.
- ... will have the chance to position yourself in a fast growing company.
- ... will meet interesting people from the blockchain and decentral identity community as well as from the industry (esp. energy, automotive/mobility and supply chain).
- ... will have the opportunity to increase your own reputation by speaking at conferences, hosting hackathons, writing articles, etc.
- ... will receive a generous budget for personal development
- ... will be able choice your own laptop
- ... will receive a gym membership dependent on the work location
- ... will love our team breakfasts and events
