

Digital Innovation Consultant (M/F/D)

About Spherity

We're a team of ambitious, forward thinking individuals with an entrepreneurial and technological mindset to build decentralized identity management solutions that power the 4th industrial revolution, by bringing digital identities to machines, algorithms, enterprises and other non-human entities.

Us brings together the mission of rebooting the web of trust, making identities self-sovereign and bring the world the benefits of decentralized solutions.

Our passion and hard work make Spherity a market leading provider of data integrity requirements of the Industrial Internet of Things (IIoT) market. Our client focus is primarily on technical industries, in particular like mobility, supply chain, and pharmaceuticals; in particular.

Responsibilities

- You will work on digital identity and Industry 4.0 projects as part of an open-minded, competent and multicultural team
- Act as technology and innovation lead, providing architecture and technology oversight and guidance in the digital transformation process of our clients
- Establish and execute technology and innovation processes and standards
- Define key metrics, and outcomes for technology that align with business goals of clients
- Manage and mitigate technology related issues for client projects, collaborate on the preparation and delivery of project and product proposals
- Explore current and evolving digital identity platforms and guide our clients to embrace it in a way that their brand reaches customers
- Help clients keep pace with their changing requirements and digital solutions
- Working with clients to solve their problems, you'll develop a deeper understanding of business challenges and how digital solutions can help
- Our products will show a footprint of your work and ideas
